

STATEMENT ON CORONA SARS-CoV-2

artec INDUSTRIAL SERVICE GROUP

Markt Erlbach, 18.03.2020

Valued Customers

Here you can find the statement from our group of companies

artec systems GmbH & Co. KG

artec electrics GmbH

artec systems Region West GmbH

on the current situation and our response to the threat of the coronavirus pandemic.

The artec Industrial Service Group is constantly monitoring the ongoing development. We are continuously in contact with our suppliers and have introduced a variety of precautionary and preventive measures to protect ourselves and our employees as much as possible in order to maintain our ability to deliver.

These measures are continuously checked and adjusted in accordance with the national and international situation.

The most important measures at a glance:

- We have changed to multi-shift operation at both our Markt Erlbach and Königswinter locations in order to equalize the spatial situation. At the same time, we give the employees maximum flexibility in order for them to provide care for their children and still maintain as much capacity as possible.
- Almost all administration staff are working from home office and are available to you as usual.
- Meetings, trips and visits are kept to the minimum necessary.
- Our employees were instructed to pay particular attention to hand hygiene and safety distances. They have also received instructions on what to do if they suspect that they may have been infected.
- The efforts of our cleaning staff with regard to the disinfection of handrails, door handles etc. were significantly increased.

We can inform you that at the present time our operation is largely trouble-free in the context of the current situation and the uncertainty of the entire population.

Our supply chains are constantly monitored by us. We react to delays in the delivery of goods as soon as they become known.

However, the situation represents a great challenge. We have to be prepared for the fact that government-imposed measures taken to prevent or contain new infections can impair our ability to deliver.

Therefore, it goes without saying that we will inform you immediately if it is foreseeable that the developments in our company will affect your company or your placed orders.

We wish all of us to overcome the corona crisis healthy and as unscathed as possible.

If you have any questions, please do not hesitate to contact us at any time.

Sincerely yours,

Armin Froschauer
Managing Director

Ralf Hentze
Managing Director
